Rinat Raot
Full-stack developer

Phone: +380636460667   **Email:** rinatoktaevich@gmail.com

Birthday: 29.10.1996   **Github:** https://github.com/RinatOktaevich

Address: Odessa

Have been participating in a Golden Byte project.

Our team took first place in final tour.

Realy like to implement features from the beginning till the end.
It`s easier to track error`s probability and in case bug occurred, easy to find out the reason.

Good problem solving skill.
Fast to learn.
Friendly for new people.

Skills

# Angular 5	# OOP principles	# ASP.NET WebAPI 2	# HTML,CSS,Javascript,TypeScript
#Design Patterns	# Database theory	#MS SQL	MySQL	# Entity Framework # DI	IoC

ONAFT | Information technology and cyber security department

IT Step Academy

Working experiance

Aug. 2018
November 2019

HYS Enterprise

Full-stack developer

Worked on 3 projects.
First was full-stack. Had developed back-end depending on existed front-end. And a little bit of front-end work.
After that worked on back-end project.
The final project was fully front-end on Angular 5.
